Institute of Psychiatry of the Taras Shevchenko National University of Kyiv

Charitable foundation Research Innovations in Medicine "RIMON"

Projects Inn, LLC Professional Congress Organiser

Dear friends and colleagues!

Irina Pinchuk, Ukraine

Prof., MD, Ph.D, Vice-President of the Ukrainian Psychiatric Association, Director of the Institute of Psychiatry of Taras Shevchenko National University of Kyiv

On behalf of the organizers, it is with great honor to invite you to participate in the **IX Annual Ukrainian Psychiatric Association International Conference "The Price Of Peace In Our Time"**, which will be held on February 24–25, 2023, with the participation of the best international speakers from Europe and America, in particular, representatives of world psychiatric associations, societies, and unions.

Due to the armed aggression of the Russian Federation, a large number of citizens of Ukraine found themselves in a state of deep stress, and military personnel received combat mental injuries and need comprehensive solutions to the problems of physical and psychological rehabilitation and social reintegration.

Based on the above, the initiative group decided to start the work of the Conference with the participation of leading world experts and Ukrainian professionals, precisely **on February 24, 2023, after a year of Russia's war in Ukraine**. The most important task of the event is the development and improvement of an effective system of rehabilitation assistance in the field of mental health, as well as overcoming the potential deterioration of the condition of Ukrainians.

For security reasons, it was decided to hold this year's meeting face-to-face in Warsaw, one of our closest neighbors and one of the leaders of Ukraine's support – Poland. But there will also be an online broadcast for all specialists interested in mental health around the world.

Sincerely, the organizing committee
